

HANDHELD TRANSMITTERS SMART & SHINE

GF110. | 1-channel handheld transmitter SMART

Features

- code setting realised by means of a coding switch fitted inside the battery compartment
- selection of one coding
- any number of receivers can be assigned to this coding

Part Nr.	Color	Number of channels	Sun automatic
GF1100	 grey/black	1	no
GF1101	 grey/white	1	no

* for individual code add

GF115. | 1-channel handheld transmitter SMART with sun automatic function

Features

- code setting realised by means of a coding switch fitted inside the battery compartment
- selection of one coding
- any number of receivers can be assigned to this coding
- extra key for the sun automatic on/off function

Part Nr.	Color	Number of channels	Sun automatic
GF1150	 grey/black	1	yes
GF1151	 grey/white	1	yes

* for individual code add

GF120. | 2-channel handheld transmitter SMART

Features

- code setting realised by means of a coding switch fitted inside the battery compartment
- selection of two different codings
- coding for the second channel is generated automatically
- any number of receivers can be assigned to these two different codings

Part Nr.	Color	Number of channels	Sun automatic
GF1200	 grey/black	2	no
GF1201	 grey/white	2	no

* for individual code add

GF1... | Holder for handheld transmitter SMART

Features

- Holder for handheld transmitter SMART

Part Nr.	Color
GF1110	 black
GF1210	 grey

GF125. | 2-channel handheld transmitter SHINE with sun automatic function

Features

- large keys for easy navigation and intuitive operation
- selection of two different codings
- setting of one coding through a coding switch fitted inside the battery compartment. Coding for the second channel will be generated automatically
- any number of receivers can be assigned to these two different codings
- extra key for the sun automatic on/off function

Part Nr.	Color	Number of channels	Sun automatic
GF1250	grey/black	2	yes
GF1251	grey/white	2	yes

* for individual code add

GF130. | 3-channel handheld transmitter SHINE

Features

- large keys for easy navigation and intuitive operation
- selection of three different codings
- setting of one coding through a coding switch fitted inside the battery compartment. Coding for the second and third channel will be generated automatically
- any number of receivers can be assigned to these three different codings

Part Nr.	Color	Number of channels	Sun automatic
GF1300	grey/black	3	no
GF1301	grey/white	3	no

* for individual code add

GF140. | 4-channel handheld transmitter SHINE with sun automatic function

Features

- large keys for easy navigation and intuitive operation
- selection of four different codings
- setting of two codings through a coding switch fitted inside the battery compartment. Coding 1 generates codes for channels 1 and 2. Coding 2 generates codes for channels 3 and 4.
- any number of receivers can be assigned to these four different codings
- extra key for the sun automatic on/off function

Part Nr.	Color	Number of channels	Sun automatic
GF1400	grey/black	4	yes
GF1401	grey/white	4	yes

* for individual code add

GF160. | 6-channel handheld transmitter SHINE

Features

- large keys for easy navigation and intuitive operation
- selection of six different codings
- setting of two codings through a coding switch fitted inside the battery compartment. Coding 1 generates codes for channels 1, 2 and 3. Coding 2 generates codes for channels 4, 5 and 6.
- any number of receivers can be assigned to these six different codings

Part Nr.	Color	Number of channels	Sun automatic
GF1600	 grey/black	6	no
GF1601	 grey/white	6	no

* for individual code add

GF0.19 | Holder for handheld transmitter SHINE

Features

- Holder for handheld transmitter SHINE

Part Nr.	Color
GF1310	 black
GF0039	 grey
